CORFLO* Nasoenteric Feeding Tubes

Anti-Clog Design

Braided stylet terminates in front of the contoured tip eliminating accidental emergence from the exit port.

Controller Design

Slightly stiffer braided stylet terminates after the exit ports for superior control during placement.

MIC* GE Feeding Tubes/Kits

The **MIC* GE FEEDING TUBE** is a precursor to the very popular MIC* GJ Feeding Tube. Also designed for simultaneous gastric decompression and jejunal feeding, this gastro-enteric feeding tube is indicated for patients where a smaller distal jejunal segment may be needed. Specific features include:

- Biocompatible Silicone Construction
- Inflatable Silicone Internal Retention Balloon
- Radiopaque Jejunal Portion
- Multiple Gastric & Jejunal Exit Ports
- Two Access Ports:
 - Gastric Decompression Port
 - Universal Jejunal Feeding Port
- SECUR-LOK* External Retention Ring

MIC* GE Feeding Tubes/Kits

Kit Includes:

GE Feeding Tube
Silicone-Coated Guidewire

MIC-KEY* J Feeding Tubes/Kits

The **MIC-KEY* J FEEDING TUBE** is indicated for patients requiring jejunal feeding only, but who want an inconspicuous external segment. With an external bolster designed like the widely prescribed MIC-KEY* G Feeding Tube, specific features include:

- Biocompatible Silicone Construction
- Inflatable Silicone Internal Retention Balloon
- Low-Profile Design
- Radiopaque Stripe
- Trimmable Jejunal Portion
- Proximal Anti-Reflux Valve
- SECUR-LOK* Extension Set Connector Mechanism

MIC-KEY* J Feeding Tubes/Kits

Kit Includes:

Low-Profile J Feeding Tube
Cannula 14ga

6ml Luer Tip Syringe
35ml Catheter Tip Syringe

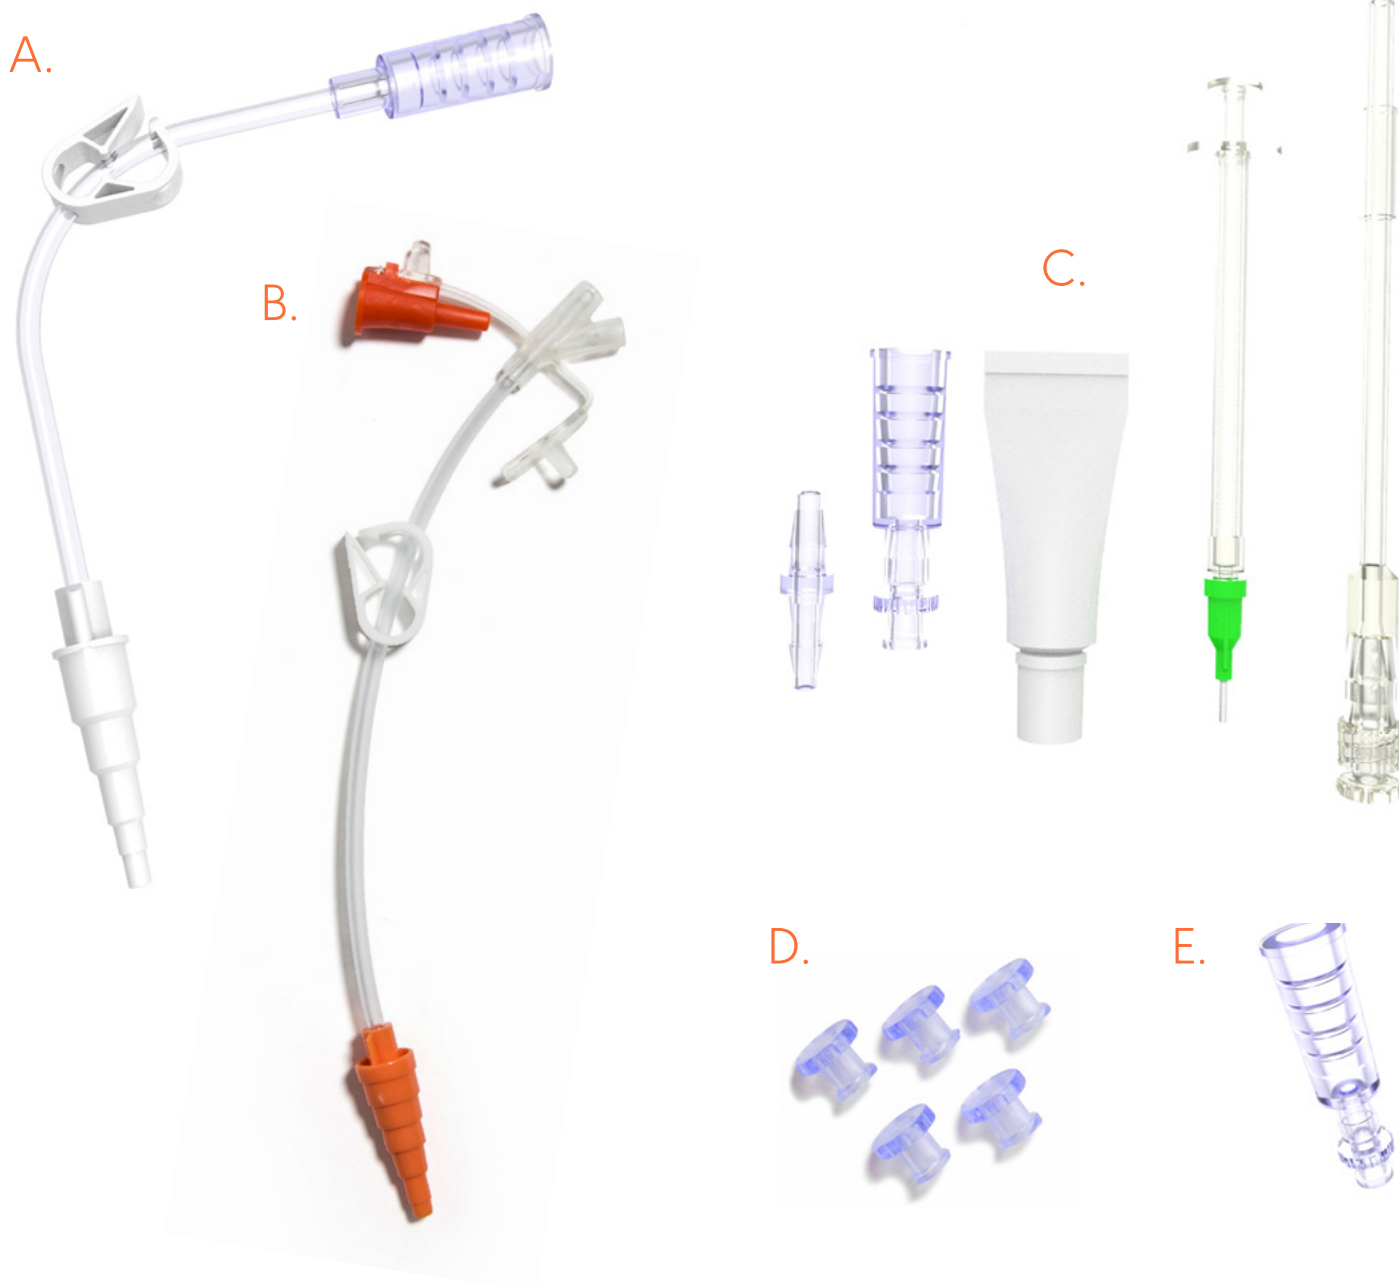

Continuous Feed Extension Set-12in
Bolus Feed Extension Set-12in

Gauze 4in x 4in
